Scenario:
Monitoring child location

Entice
How child location is monitored?

Enter
How message is been notified to user?

Engage
In the core moments in the process, what happens?

Exit
What do people typically experience as the process finishes?

Extend
What happens after the experience is over?

Steps

| Create a web application | Parent can create geofence | Check whether child is inside geofence | Updating of child location | Location of child sent periodically | Review of application | Alert parents |

Interaction

| Interacting with child | Guiding child | Setting geofence | Regular updates | Parent needs are meet | Connection terminated when gps is off |

| Regular monitoring | Geofence need to be set |

Goals and motivation

| Monitoring child | Prevent child missing | Taking care of child in absence | Notifying when child crosses geofence | Location is sent | Geofence location is set |

Submitted by subashini A

Positive moments

| Happy parents | Child taken care without caretaker | | User friendly | Regular updates | | Less expensive |

Negative moments

| Alert sound is not given | GPS location is not proper | | Message along with location not sent | | Regular updates not sent | | More features to be added |

Areas of opportunity

| In absence of caretaker | Alert sound along with massage | Alternate options if message not sent | | Where no one is able to take care of child | | Reviews may not asked frequently | | Periodic updates of child location |
